1 Inspirations

Conceptual inspiration comes from sources such as Cho, Crenshaw, and McCall (2013), Cesaire (1956), Martín-Baró (1998), Montero and Sonn (2009), Antweiler (2016), Stage and Wells (2014), and Scharrer and Ramasubramanian (2021).

Substantively and practically, this handout depends **heavily** on the ideas, example code, and example data set in Evans et al. (2024).
